## OUR ASPIRATION FOR MINDANAO

“A Mindanao that is green, its waters teeming with life and its people producing food the natural way, at peace with nature and each other.”

## OUR MISSION

To help integrate environmental protection programs of government, corporate organizations and NGO’s down to the barangay level in order to achieve synergies and optimum results.

## OUR STRATEGIES

- Collaborate with government, other like-minded groups and individuals.
- Raise awareness of Mindanaonons on environmental issues thru information and education.
- Advocate organic agriculture.
- Demonstrate practical solutions that every Mindanaonon can do.
- Recognize best practices in environment protection and organic farming.

## OUR PRIMARY ADVOCACIES

- Assisted natural reforestation using endemic plants and agro-forestry for carbon sequestration
- Watershed rehabilitation and management
- Home and industry waste reduction
- Low-cost waste disposal and recycling technology
- Organic food crops, poultry, live stock and aquaculture
- Reviving and improving indigenous food crops and farming practices, including SALT
- Mangrove rehabilitation and protection
- Designation and protection of marine sanctuaries
- Access of farmers to organic farming technology
- Access of fisher folks to organic aquaculture technology

## OUR LOGO

- The leaf symbolizes the forests and all the plants that keep the air fresh and pure.
- Color green also symbolizes life.
- The crystalline water symbolizes the challenge of cleaning up Mother Earth.
